Know us before you need us.

We can empower you to live and age with dignity—safe, healthy, independent.

With over 45 years of experience serving older adults, adults with disabilities and caregivers, Minuteman Senior Services knows how to help you find the help you need when and where you need it. Our goal is to empower you to meet the challenges of aging, disability and caregiving head on—with information, assistance and support—so you can stay in control of your life and make informed choices.

We simplify the system.

Just think of us as a “one stop resource.” One call can lead you to information about in-home and residential care options, caregiver support, public benefits, health insurance and prescription drug coverage, and much more. We explain the details so that you understand your options. Our goal is to bring you peace of mind by helping you find solutions to everyday issues.
