

# Elder Protective Services

## What is elder abuse?

The Elder Abuse Law, enacted in Massachusetts in 1983, defines elder abuse as any act or omission which results in serious physical or emotional injury to, or financial exploitation of an elder.

## Who is covered by the elder abuse law?

Every individual age 60 or over living in the community who suffers **physical, emotional or sexual abuse, self-neglect, neglect by a caretaker, or financial exploitation** by an individual with an *ongoing personal relationship* is covered by law. Please refer to the **Quick Reference Guide** on the back of this page for further clarification.

## How is elder abuse reported?

Minuteman Senior Services has been designated by the Executive Office of Elder Affairs to investigate all reports of elder abuse in our 16-town area. If you are concerned about an older adult (age 60 or older), and have reason to believe he/she is a victim of elder abuse, neglect, self-neglect or financial exploitation call the Massachusetts-based Elder Abuse Hotline at **1-800-922-2275**, or a report can be filed online at Mass.gov.

Mandated reporters who file a report by calling the Elder Abuse Hotline are required to follow-up with a written report (mandated reporter form) within 48 hours, by mail or fax (address below).

Mandated Reporters who file a report online are not required to file a written report.

Most verbal reports take 30-45 minutes. Please be as prepared as you can to provide information regarding:

- The nature of the abuse/neglect - What is alleged, what has happened, where is it happening, when did it last happen, how long has it been happening, who is involved, who has observed, who has access, what was the outcome, what were the consequences, do we have any information regarding the likeliness of recurrence? Please be as specific as you can regarding the “who/what/when/where/why/how” information as it pertains to the situation.
- The elder’s current condition - What is the elder’s level of functioning? Is the elder alert and oriented, or confused? Is there duress/intimidation from anyone involved? What is the elder’s understanding of the situation, safety planning, and willingness to accept help?

Physicians, nurses, social workers, physical/occupational/speech therapists and Police Dept./Fire Dept. workers are Mandated Reporters under the elder abuse statute.

Although Protective Services understands that all information will not be known, questions will be asked regarding the information. The more firsthand information that can be provided, the better. Please report from the scene as appropriate, or as soon thereafter as possible.

Any reporting of alleged abuse in good faith shall not be liable in any civil or criminal action, provided the reporter did not inflict the abuse. The identity of the reporter is confidential; however, a reporter can choose to disclose that they are reporting. Something like “I’d like you to talk to a social worker, I’m worried you’re not safe” or “I’m mandated to notify protective services” can be helpful. The identity of the reporter is strictly confidential unless a reporter opts to disclose his/her identity as the reporter.
